

Installation Guide

Case components

Hardware list

* Extra quantities are spare parts.

	3-pin to 4-pin power-cord converter for fan (1)		Anti-vibration rubber-rings for HDDs (13)	
	Buzzer (1)			
	PSU mounting bracket (1)		Thumb-screws for HDD mounting (13)	
	Cable ties (4)		(6) Short & (3) long thumb-screws for mounting motherboard	
	USB 3.0 to USB 2.0 converter (1)		PSU mounting screws (4)	

Remove side panels

Motherboard installation

Remove front panel

Pull the front panel toward yourself.

Remove air filter

Push clips to release the washable air filter.

Remove the fan module

Slide the anti-vibration fan modules sideways to remove. (Note: air filters and HDD cage must be removed first)

ODD installation

Push ODD mounting lock to release bracket.

Slide the ODD into the 5.25" mount, and close the bracket to secure the ODD.

OPTION KITS

PCI-01A

Tool-less PCI add-on card holder

Open the aluminum latch to remove the PCI slot bracket

Push the card into the PCI slot. Close the aluminum latch to lock the card in place.

3.5" HDD installation

Install the screws to the HDD with anti-vibration rubber rings.

Slide the HDD into the HDD cage.

Close the gate to secure the HDD.

Cable management - 1

2.5" HDD installation - 1

Install screws along with anti-vibration rubber rings onto the HDD.

Slide the HDD into place on the HDD platform.

2.5" HDD installation - 2

Fasten the HDD to the platform with four screws.

Cable management - 2

Remove HDD cage

Release the HDD cages by loosening the three thumb screws securing them.

Notice: HDDs can face either direction, as preferred.

Move HDD cage

Position HDD cage onto the device mount

Fasten thumb-screws to secure the HDD cage to the chassis.

PSU installation

Place the PSU on its mount, against the rear panel.

Insert PSU bracket into slot, as shown.

Secure the PSU by locking the bracket. (Note: When transporting chassis, use screws to secure the PSU)

BLACK	PURPLE	8	7
YELLOW	6	5	ORANGE
BROWN	4	3	N.C.
RED	2	1	GND+H.S. TUBE

USB 3.0 to USB 2.0 converter

Installing, optional, 120mm or 140mm fans on side panel (fans & screws not included)

Remove the six screws to release the cover

Use pieces of cover, as shown, for each configuration

For one center-mounted, 120mm or 140mm fan, use a cover piece on both sides

For two, 120mm or 140mm, fans, use no cover pieces

For one upper-mounted, 120mm or 140mm fan, use two cover pieces directly below

For one lower-mounted, 120mm or 140mm fan, use two cover pieces directly above
